Deluxe Dome Paperweight Template & Design Specifications

Design Size: 3⅛" diameter

Include ⅛" for bleed around all edges (to extend color or photograph to edges of dome paperweight). The bleed area will be cropped and not part of the finished product.

Design Size with Bleed: 3⅜" diameter

Distortion
This area (in light grey) will be slightly distorted by the bend of the glass. Some color will be visible. Important details should not be in this area.

Uploading – File Types
Acceptable files types include: JPG, PNG, GIF.

File Size
Please keep file size under 2 MB for easy uploading. Art resolution should be around 300 dpi.
