# Domed Paperweight Template & Design Specifications

**Design Size: 2½" diameter**

Include ⅛" for bleed around all edges (to extend color or photograph to edges of dome paperweight). The bleed area will be cropped and not part of the finished product.

**Design Size with Bleed: 2¾" diameter**

**Distortion**
This area (in light grey) will be slightly distorted by the bend of the glass. Color will be visible. Smaller details may be hard to see in the distortion.

**Uploading – File Types**
Acceptable files types include: JPG, PNG, GIF.

**File Size**
Please keep file size under 2 MB for easy uploading. Art resolution should be around 300 dpi.
